A screenshot of a Zoom meeting. On the left is a sidebar with a list of participants: DM6EE, Lutz; Mike DL7UGN; Matthias DF2OF; Hans, DK1WB; HB9GVC Thomas; Klaus, DL8TG; Mike DL7UGN; and Uwe, DK3WW. The main window shows a presentation slide titled 'CW online lernen - CWA' with the CW ops and CW Academy logos. The slide features three images of electronic equipment: a red component on a circular base, a gold-colored component on a black base, and a wooden-based component with a handle. At the bottom of the slide, it says 'Juli 2024' and 'DK1WB, DL7UGN, HB9GVC, DL8TG, DM6EE, DF2OF, DK3WW'. The Zoom interface at the bottom shows a 'Folie 1' indicator and a 100% zoom level.

Signup Information

CW Academy offers four levels of classes based upon operator CW proficiency: Beginner, Fundamental, Intermediate or Advanced.

- The Beginner level, as the name implies, is for people who have little or no Morse code knowledge. Choose the Beginner class if that is your situation
- The Fundamental class is for people who have learned the Morse code characters and are capable of sending and receiving CW at about 6 words per minute and wish to increase that capability to about 12 words per minute
- The Intermediate class is for people who are capable of sending and receiving Morse code at a minimum of 10 words per minute and wish to increase that capability to about 20 words per minute
- The Advanced class is for people who are capable of sending and receiving Morse code at a minimum of 20 words per minute and wish to increase that capability to about 30 words per minute

Classes at the CW Academy are free of charge. The advisors and staff are a volunteers who have a passion for CW. Classes are eight weeks long and held in January - February, May - June, and September - October. Classes meet twice a week for about an hour. Between classes the students have daily homework assignments which will take about an hour to complete.

Minimum essentials:

- High speed broadband internet access
- Computing device (desktop, laptop)
- Webcam (camera, microphone) either built-in or USB add-on
- Key paddle (single lever or dual lever. Straight keys or Bugs are not allowed)
- Keyer with sidetone or radio with built-in keyer and sidetone
- Dedication to 60 minutes of daily practice
- Comfortable understanding and speaking the English language unless previous arrangements have been made

Students are limited to one registration at a time in the system. When you have completed a class you may register for a future class.

To get started, please enter your call sign (or your last name if you do not have a call sign) and select the class level you are considering. Note: *call sign may not include a space, hyphen, or a slash.*

Kursablauf

- 2 Online Sessions pro Woche: Montag/Donnerstag 20 Uhr ME(S)Z auf treff.darc.de
- [CWops Morsetrainer Online](https://morsecode.world/international/trainer/trainer.html) (<https://morsecode.world/international/trainer/trainer.html>)
- Offline (noch nicht getestet): [Download Offline Morsetrainer](#) (<https://morsecode.world/international/trainer/morse-trainer-offline.zip>)
- LCWO online (<https://lcwo.net/>)
- Training mit dem CWops Tool

The screenshot shows the 'International Morse Training' website interface. At the top, there's a navigation bar with links for 'CW Generator', 'CWops (EN)', 'CWops (JP)', 'QSO', 'Word List', and 'ICR'. Below this, there are several input fields for user information: 'Your call sign', 'Your town/city and state abbreviation', 'Your name', 'Your age', 'Your power', and 'Your antenna'. The main content area is divided into three sections: 'Session', 'Feedback', and 'Morse Sound Controls'. The 'Session' section has a 'Previous' button, a 'Session' indicator showing '1/13', and a 'Next' button. The 'Feedback' section includes 'Show text' and 'Flashcard' buttons, and a 'Thinking time' input set to '75 %'. The 'Morse Sound Controls' section has sliders for 'Frequency' (550), 'Volume' (100), 'Character speed' (25), and 'Farnsworth speed' (4). Below these sections, there are tabs for 'Copying', 'Sending', 'Free-form', and 'Random'. The 'Copying' tab is active, showing a sequence of 't' characters in a box and a set of playback controls including 'Play', 'Pause', 'Stop', 'Previous', 'Segment' (1/18), 'Next', 'Repeat', 'Shuffle', and 'Download'.

Kursablauf - Intermediate

➤ Morserunner, LCWO, Soundfiles

New Short Files – Are available at speeds of 10, 13, 15, 18, 20 and 25 WPM.

Short Words – Starts with few characters and words and increase up to five of each.

Short Phrases – Start with few characters and words and increasing to six and four.

Short QSOS – Introduces common exchanges. Begin fairly simple and then have increasing complexity.

Short POTA – Typical POTA exchanges. Begin fairly simple and then have increasing complexity.

New Prefix Files – are available at speeds of 10, 13, 15, 18, 20 and 25 WPM.

Contains the four most commonly use prefixes – DIS, IM, IN, IR, RE and UN

Each prefix is repeated three times, then it sends associated words from 4 to 8 characters in length.

New Suffix Files – are available at speeds of 10, 13, 15, 18, 20 and 25 WPM.

Contains the four most commonly use suffixes – ED, ES, ING and LY

Each suffix is repeated three times, then it sends associated words from 4 to 8 characters in length.

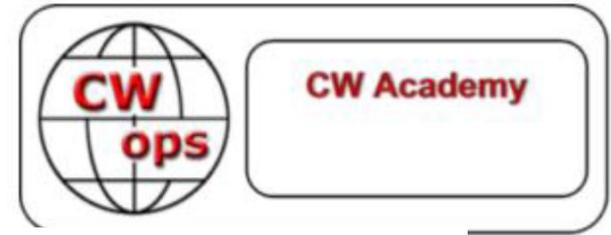

QSO Practice Files (QSO 201, etc.) – Are available at speeds of 10, 13, 15, 18, 20 and 25 WPM.

CWT Practice Files (CWT 201, etc.) – Are available at speeds of 20, 25 and 30 WPM. This is to give you experience in listening and getting ready to participate in CWT.

The weekly CWT – Is an 'on-air' higher-speed event, managed by CWops. These occur each Wednesday at 1300 UTC and 1900 UTC, and Thursday at 0300 UTC and 0700 UTC. Each is an hour long and provides a great opportunity to practice and learn techniques that can prepare you to work DX and/or become an effective contester. And they are fun.

RufzXP – Is an 'optional' practice application. It is a contest simulator and a great way to practice callsigns that come to you at different speeds. It 'rewards' or 'penalizes' based on the timing and accuracy of your response. A session is comprised of 50 callsigns, with two chances to get it correct. Practice this as desired or assigned by your advisor. See webpage: [Using RufzXP](#)
